# **Town Demographics**

The Aim Salary Survey gathers information on the annual compensation of municipal employees. The survey results are used by fellow municipal officials to create budgets and it provides Aim with valuable information throughout the year for research, policy and media relations purposes. Municipalities responding to this survey will receive a copy of the publication immediately upon its completion. Thank you in advance for your participation!

Please note: The survey is set up to automatically save your responses. However, you must use the same computer each time you login for your responses to be saved and retrieved. Technical glitches do sometimes occur with this system. Aim recommends completing the survey in one sitting to ensure responses are submitted accurately.
