CLASS DESCRIPTIONS

ROAD MAP FOR UNDERSTANDING THE ALLOCATION AND REPORTING OF MVH DOLLARS

The additional infrastructure dollars coming into Indiana's cities and towns in recent years have been welcomed, and the positive results are being seen all over the state. Learning to properly allocate these funds and address the tracking and reporting of the same can be a little more complex. Participants will learn how to appropriately define and allocate MVH road maintenance and preservation funds, and how to create and maintain a reporting system that provides a transparent accounting of these valuable dollars.

PREVENTING SEXUAL HARASSMENT IN THE WORKPLACE AND THE COSTS FOR FAILING TO DO SO

Municipalities are public entities, tasked with providing various services and amenities. In order to perform your prescribed functions, it often means municipalities must become employers. As employers, preventing sexual harassment in the workplace and responding appropriately to such claims should be a top

priority. You need to have the right prevention and response tools in place to not only be a first-class employer, but also to protect your community from the enormous financial liability that can result from these serious claims.

IDENTIFYING CREDIT CARD, TECHNOLOGY AND IDENTITY FRAUD

Do you know how to spot credit card fraud? Is your community susceptible to a hack that cripples your government functions? What can you or your employees do to prevent or spot identity fraud? Trying to keep track of how to protect yourself and those you serve is like drinking through a firehose. This session will help you grow more comfortable with the basic cyber security information you need to stay cool, calm and collected!

WRITING SOUND INTERNAL CONTROLS POLICIES

Following a brief refresher on why a community must have internal controls policies in place and what such policies generally cover, participants will get detailed guidance on how to write and implement a policy tailored to your community. There will be time for Q & A, so bring your most challenging scenarios and get advice from an expert!
