

MAYORS INSTITUTE

November 29 - 30, 2018
City Hardware, Indianapolis

Mayors Institute is a high-level learning experience, designed exclusively for mayors. The Institute is a partnership between Aim and the Indiana Communities Institute (ICI) at Ball State University that's helped to make the program better than ever before.

By participating in the Institute, mayors will gain practical tools that can be applied to the real-life challenges public officials face on a daily basis. During this day and a half program guest speakers and Aim staff will present an agenda of highly substantive sessions that will lead mayors through unique leadership and problem solving exercises with their colleagues from across the state. Featuring many opportunities for the sharing of innovative, effective strategies to run city government, Mayors Institute sessions are timely, relevant and essential.

Aim and ICI will host Mayors Institute, November 29-30, in Indianapolis. All Hoosier mayors are invited to participate in the Mayors Institute to achieve certification in this exciting city leadership program.

Accelerate Indiana Municipalities (Aim)

Ever since the 1890s, Aim, formerly the Indiana Association of Cities and Towns, has been an advocate for Indiana municipalities. Aim is the official voice of municipal government in Indiana, with more than 460 cities and towns as members. Our purpose is to foster, promote and advocate for the success of Hoosier municipalities as laboratories of innovation, hubs of talent and the engines driving our state's economy.

Ball State University Indiana Communities Institute (ICI)

ICI addresses the modern challenges of economic development through community-based strategies for sustainable growth. Although their efforts focus on strengthening communities throughout Indiana, this strategy serves as a model for university economic development efforts across the nation. The research-policy-practice framework allows ICI to tap into talent and resources from research and outreach units across campus. ICI's partnerships lead to informed, effective projects and strategies that bring development efforts into the 21st century.
