# REACH Alert

STAY IN TOUCH WITH EVERYONE

## A Notification Service For All of Your Needs

REACH Alert is a notification service that helps Administrators communicate timely information to everyone in your organization - or just those with a need to know, quickly.

We take the work out of communicating & make it *easy* for you to reach your people by **text message**, **voice call**, and **email** simultaneously.

## How it Works

- 1 SOMETHING HAPPENS**  
Maybe it's an emergency like a water line break, or a more common situation, like a road closing.
- 2 LOGIN TO REACH ALERT**  
An Administrator in your Network will login at [www.reachalert.com](http://www.reachalert.com).
- 3 CLICK "SEND AN ALERT"**  
Once logged in, your Administrator will click on the red Send an Alert button.
- 4 TYPE YOUR MESSAGE & SEND**  
On the Send an Alert screen, your Administrator will type their message & click Send Alert.
- 5 EVERYONE IS NOTIFIED**  
Within seconds, everyone will receive the alert & is in touch with your organization in the modes that work best for them.
