50TH
YEAR

Summer
CELEBRATION
INDIANA BLACK EXPO

Mark Your Calendar!

Vaccine clinic held during Summer Celebration Indiana Convention Center, Hall J | July 16 – 18

As part of the 50th anniversary of Indiana Black Expo's Summer Celebration, the state Office of Minority Health will host its annual [Black and Minority Health Fair](#) where the COVID-19 vaccine will be available. This site will administer the single dose Johnson & Johnson vaccine, as well as the Pfizer two-dose vaccine.

Vaccine clinic:
July 16 & 17: 10 a.m. – 7 p.m. | July 18: Noon – 6 p.m.

REMEMBER

The Johnson & Johnson vaccine is approved for emergency use for people 18 and older and is a single shot. Pfizer is a two-dose regimen and approved for emergency use for people age 12 and older.

To date, **2,766,914** Hoosiers have been fully vaccinated!

June 24 – July 17

Vaccine available at mobile clinics statewide

All sites will administer Johnson & Johnson and Pfizer, unless noted.

Vaccines protect, even against variants

The COVID-19 vaccines prevent hospitalization and severe illness nearly 100% of the time, even against variant strains of the infection. [Learn more about variants](#) and how they are being tracked in Indiana [here](#).

Variants		More Info on Variants
% of Samples Positive for Variant	Total Variant Cases	
60.8	4,813	
Variant	Case Count	
Alpha / B.1.1.7	3,762	
Gamma / P.1	500	
Epsilon / B.1.422/B.1.429	416	
Delta / B.1.617.2	106	
Beta / B.1.351	29

- UPDATED:** What you can do if you are [fully vaccinated](#).
- Proof of vaccination is available at [Access Indiana](#). Scroll down to the "Indiana Vaccination Portal" tile, create an account, and download a vaccination certificate.
- Register for a vaccination appointment at [OurShot.IN.gov](#) (Chrome or Firefox). Call Indiana 211 or (1-866-211-9966) if you have difficulty registering online. Most vaccine clinics now take walk-ins.
- [Learn about V-Safe](#), the after-vaccination health checker, and the new [V-safe COVID-19 Pregnancy Registry](#). V-safe is also available now in [multiple languages](#).
- Report any adverse effects from any vaccine to the [Vaccine Adverse Effect Reporting System \(VAERS\)](#).

COVID-19 VACCINE

Snapshot

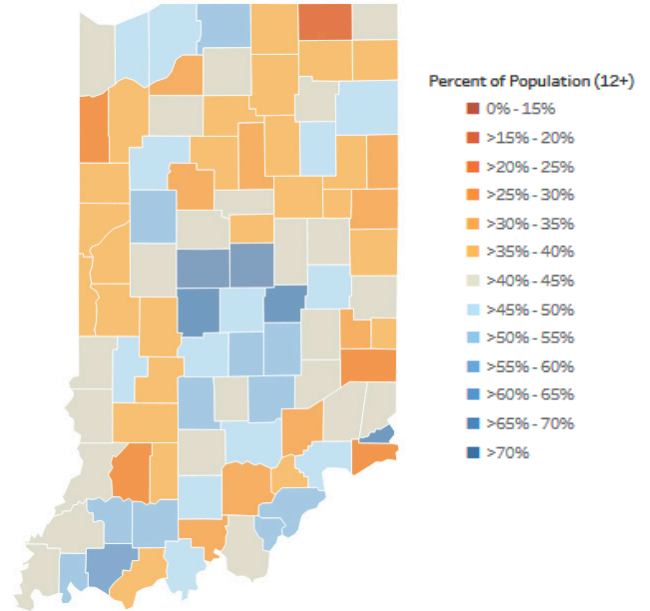

Total Individuals Fully Vaccinated*

2,766,914

Fully Vaccinated as a Percentage of County Population 12+

*Individuals are fully vaccinated after their 2nd dose of Pfizer or Moderna vaccine, OR after a single dose of Johnson & Johnson vaccine.

Here are the latest percentages of people who received the first dose of a vaccine by age group. These percentages include residents and staff in long-term care facilities.

75.8% of 80+

78.2% of 75-79

81.4% of 70-74

74.9% of 65-69

65.3% of 60-64

52.7% of 55-59

48.8% of 50-54

43.7% of 45-49

43.1% of 40-44

38.4% of 35-39

35.7% of 30-34

29.9% of 25-29

33.4% of 20-24

32.3% of 16-19

19.8% of 12-15

If I already had COVID-19 and recovered, do I still need to get the COVID-19 vaccine?

The answer is **yes**. Experts do not yet know how long you will be protected from getting sick again after recovering from COVID-19. Plus, getting vaccinated is a safer way to build protection than getting infected. Read more about this, and other [frequently asked questions](#) about vaccine benefits, safety and more.
